

## EQIP 2009 Socially Disadvantaged Ranking Tool\*\*

Land Uses: Crop, Forest Hay, Headquarters, Pasture, Water, Wildlife

\*\*This option is intended for farmers or ranchers that have been subjected to racial or ethnic prejudice because of their identity as member of an ethnic/racial group without regard to their individual qualities. Those groups include African Americans, American Indians or Alaskan natives, Hispanics, and Asians or Pacific Islanders. The applicant self-certify meeting this criteria.

### National Priorities:

Questions:

Number	Question	Points
1	Will the treatment you intend to implement using EQIP result in a considerable reduction of non-point source pollution, such as nutrients, sediment, pesticides, excess salinity in impaired watersheds with total maximum daily loads (TMDLs) where available, groundwater contamination or point sources such as contamination from confined animal feeding operations?	5
2	Will the treatment you intend to implement for water conservation or irrigation efficiency using EQIP result in a considerable reduction in water use?	5
3	Will the treatment you intend to implement using EQIP result in a considerable reduction of emissions, such as particulate matter, nitrogen oxides (NOx), volatile organic compounds, and ozone precursors and depleters that contribute to air quality impairment violations of National Ambient Air Quality Standards?	5
4	Will the treatment you intend to implement using EQIP result in a considerable reduction in soil erosion and sedimentation from unacceptable levels on agricultural land?	5
5	Will the treatment you intend to implement using EQIP result in a considerable increase in the promotion of at-risk species habitat conservation?	5
6	Will the treatment that you intend to implement using EQIP result in considerable benefits to residue management, nutrient management, air quality management, invasive species management, pollinator habitat, and animal carcass management technology or pest management?	5
7	Will the treatment that you intend to implement using EQIP result in energy conservation benefits?	5
<b>Total Points</b>		<b>35</b>

### State Issues:

Questions:

Sub-heading Number	Question Number	Question	Points
	1	Do you have production problems due to soil quality issues (example: compaction, low fertility, erosion) that you want to address?	6
	2	Does the production site has problems with off-farm runoff and/or sedimentation that you want to control?	5
	3	Do you want to make your existing irrigation system more efficient or need a livestock watering system?	8
	4	Will the treatment you intent to implement improve water quality?	12
	5	Do you have animal manure or other agricultural organic waste that you would like to manage to benefit your agricultural business and the environment?	8
	6	Are you interested in managing your pesticides in a more environmentally and production friendly way?	5
	7	Does your operation produce unwanted odors or particles that are creating a neighborhood problem that you want or need to control?	15
	8	Do you have a current conservation plan (plan that adequately addresses soil erosion, water quality, including nutrients if applicable) for the production unit you are proposing for contract?	16
	9	Is the production unit proposed for contract located in one of the watersheds that NRCS is targeting due to excess of sediment and nutrients?	10
<b>Maximum Points: 80 Total Points</b>			<b>85</b>

**Selected Resource Concerns and Practices\*:****(See next page for additional practices)**

Practice	Domestic Animals: Inadequate Quantities and Quality of Feed and Forage	Domestic Animals: Inadequate Stock Water	Fish and Wildlife: Inadequate Cover/Shelter	Fish and Wildlife: Inadequate Space	Fish and Wildlife: T&E Species: Declining Species, Species of Concern	Fish and Wildlife: Threatened and Endangered Fish and Wildlife Species
Access Control (472)	X		X	X	X	X
Animal Trails and Walkways (575)	X	X				
Brush Management (314)	X		X	X	X	X
Comprehensive Nutrient Management Plan (100)	X					
Conservation Cover (327)			X	X	X	X
Critical Area Planting (342)			X	X	X	X
Early Successional Habitat Development/Management (647)			X	X	X	X
Feed Management (592)	X					
Fence (382)	X		X	X	X	X
Field Border (386)			X	X	X	X
Fish Passage (396)			X	X	X	X
Forest Stand Improvement			X	X	X	X
Hedgerow Planting (422)			X			
Pasture and Hay Planting (512)	X		X		X	X
Pipeline (614)		X				
Pond (378)		X				
Pond Sealing - Clay Treatment (521D)		X				
Pond Sealing or Lining, Bentonite Sealant (521C)		X				
Pond Sealing or Lining, Flexible Membrane (521A)		X				
Pond Sealing or Lining, Soil Dispersant (521B)		X				
Prescribed Grazing (528)	X	X				
Pumping Plant (533)		X
